

St Joseph's Catholic Primary School

Science –Progression of Scientific Knowledge

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<p>Plants</p> <p>1a 1 Identify and name a variety of local garden plants, and trees</p> <p>1a 2 Identify and describe the basic structure of a flower and tree</p>	<p>Plants</p> <p>1a 1 Identify and name a variety of common wild and garden plants, including deciduous and evergreen trees</p> <p>1a 2 Identify and describe the basic structure of a variety of common flowering plants, including trees</p>	<p>Plants</p> <p>2b1: observe and describe how seeds and bulbs grow into mature plants</p> <p>2b2: find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.</p>	<p>Plants</p> <p>3a1: identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers</p> <p>3a2: explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant</p> <p>3a3: investigate the way in which water is transported within plants</p> <p>3a4: explore the part that flowers play in the life cycle of flowering plants, including pollination, seed</p>	<p>Living Things & Their Habitats</p> <p>4a1: recognise that living things can be grouped in a variety of ways</p> <p>4a2: explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment</p> <p>4a3: recognise that environments can change and that this can sometimes pose dangers to living things.</p>	<p>Living Things & Their Habitats</p> <p>5a1: describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird</p> <p>5a2: describe the life process of reproduction in some plants and animals.</p>	<p>Living Things & Their Habitats</p> <p>6a1: describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals</p> <p>6a2: give reasons for classifying plants and animals based on specific characteristics.</p>

St Joseph's Catholic Primary School

			formation and seed dispersal.			
<p>Seasonal changes Observe and name the four seasons</p>	<p>Seasonal changes 1d1: Observe changes across the four seasons 1d2: Observe and describe weather associated with the seasons and how day length varies</p>	<p>Living Things & Their Habitats 2a1: explore and compare the differences between things that are living, dead, and things that have never been alive 2a2: identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other 2a3: identify and name a variety of plants and animals in their habitats, including micro-habitats</p>				<p>Evolution and Inheritance 6c1: recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago 6c2: recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents 6c3: identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution</p>

St Joseph's Catholic Primary School

		2a4: describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.				
<p>Minibeasts</p> <p>1b1: Identify and name a variety of common insects</p>	<p>Animals Including Humans</p> <p>1b1: Identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals</p> <p>1b2: Identify and name a variety of common animals that are carnivores, herbivores and omnivores</p> <p>1b3: Describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and</p>	<p>Animals Including Humans</p> <p>2c1: notice that animals, including humans, have offspring which grow into adults</p> <p>2c2: find out about and describe the basic needs of animals, including humans, for survival (water, food and air)</p> <p>2c3: describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</p>	<p>Animals Including Human</p> <p>3b1: identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat</p> <p>3b2: identify that humans and some other animals have skeletons and muscles for support, protection and movement.</p>	<p>Animals Including Humans</p> <p>4b1: describe the simple functions of the basic parts of the digestive system in humans</p> <p>4b2: identify the different types of teeth in humans and their simple functions</p> <p>4b3: construct and interpret a variety of food chains, identifying producers, predators and prey.</p>	<p>Animals Including Humans</p> <p>5b1: describe the changes as humans develop to old age</p>	<p>Animals Including Humans</p> <p>6b1: identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood</p> <p>6b2: recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function</p> <p>6b3: describe the ways in which nutrients and water are transported within animals, including humans.</p>

St Joseph's Catholic Primary School

	<p>mammals, including pets)</p> <p>1b4: Identify, name, draw and label the basic parts of the human body and say what part of the body is associated with which sense</p>					
<p>Materials</p> <p>Identify and name a variety of everyday materials and explore their properties</p>	<p>Everyday materials</p> <p>1c1: Distinguish between an object and the material from which it is made</p> <p>1c2: Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water and rock</p> <p>1c3: Describe the simple physical properties of a variety of materials</p> <p>1c4: Compare and group together a variety of everyday materials on the</p>	<p>Uses of Everyday Materials</p> <p>2d1: identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses</p> <p>2d2: find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.</p>	<p>Rocks</p> <p>3c1: compare and group together different kinds of rocks on the basis of their appearance and simple physical properties</p> <p>3c2: describe in simple terms how fossils are formed when things that have lived are trapped within rock</p> <p>3c3: recognise that soils are made from rocks and organic matter.</p>	<p>States of Matter</p> <p>4c1: compare and group materials together, according to whether they are solids, liquids or gases</p> <p>4c2: observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius</p> <p>4c3: identify the part played by evaporation and condensation in the water cycle and</p>	<p>Properties & Changes of Materials</p> <p>5c1: compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets</p> <p>5c2: know that some materials will dissolve in liquid to form a solution, and describe how to recover a</p>

					including changes associated with burning and the action of acid on bicarbonate of soda	
<p>Light</p> <p>Identify and name different times of the day.</p>			<p>Light</p> <p>3d1: recognise that they need light in order to see things and that dark is the absence of light 3d2: notice that light is reflected from surfaces 3d3: recognise that light from the sun can be dangerous and that there are ways to protect their eyes 3d4: recognise that shadows are formed when the light from a light source is blocked by a solid object 3d5: find patterns in the way that the size of shadows change.</p>	<p>Sound</p> <p>4d1: identify how sounds are made, associating some of them with something vibrating 4d2: recognise that vibrations from sounds travel through a medium to the ear 4d3: find patterns between the pitch of a sound and features of the object that produced it 4d4: find patterns between the volume of a sound and the strength of the vibrations that produced it</p>	<p>Earth Space</p> <p>5d1: describe the movement of the Earth, and other planets, relative to the Sun in the solar system 5d2: describe the movement of the Moon relative to the Earth 5d3: describe the Sun, Earth and Moon as approximately spherical bodies 5d4: use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky</p>	<p>Light</p> <p>6d1: recognise that light appears to travel in straight lines 6d2: use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye 6d3: explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes 6d4: use the idea that light travels in straight lines to</p>

St Joseph's Catholic Primary School

				<p>4d5: recognise that sounds get fainter as the distance from the sound source increases</p>		<p>explain why shadows have the same shape as the objects that cast them.</p>
			<p>Forces and Magnets</p> <p>3e1: compare how things move on different surfaces</p> <p>3e2: notice that some forces need contact between two objects, but magnetic forces can act at a distance</p> <p>3e3: observe how magnets attract or repel each other and attract some materials and not others</p> <p>3e4: compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and</p>	<p>Electricity</p> <p>4e1: identify common appliances that run on electricity</p> <p>4e2: construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers</p> <p>4e3: identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery</p> <p>4e4: recognise that a switch opens and closes a circuit and</p>	<p>Forces</p> <p>5e1: explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object</p> <p>5e2: identify the effects of air resistance, water resistance and friction, that act between moving surfaces</p> <p>5e3: recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect</p>	<p>Electricity</p> <p>6e1: associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit</p> <p>6e2: compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches</p> <p>6e3: use recognised symbols when representing a simple circuit in a diagram.</p>

St Joseph's Catholic Primary School

			<p>identify some magnetic materials</p> <p>3e5: describe magnets as having two poles</p> <p>3e6: predict whether two magnets will attract or repel each other, depending on which poles are facing.</p>	<p>associate this with whether or not a lamp lights in a simple series circuit</p> <p>4e5: recognise some common conductors and insulators, and associate metals with being good conductors.</p>
